Prompt: How would you rewrite the below evaluation, borrowing language using the competency-framework?

They listened to a patient’s concerns about the COVID vaccine and tried to help them understand why it was important. The patient then shared his worry that he might be billed for the vaccine, and X patiently explained that there would be no cost. The patient ended up getting the vaccine because of X!

Competency Framework

PC-3 Partners with the patient, family, and community to improve health through disease prevention and health promotion
